

e-Diagnostics Working Group Meeting

SEMICON Southwest e-Diagnostics Seminar

Harvey Wohlwend

September 20, 2000

INTERNATIONAL
SEMATECH

e-Diagnostics Seminar - 10/19/00

What: E-Diagnostics seminar that will include a review of the functionality and data needed to support e-Diagnostics, a summary of requirements and implementation guidelines for e-Diagnostics will be provided (Guidebook). This meeting provides an opportunity to widely distribute the e-Diagnostics material to encourage a common industry approach to e-Diagnostics.

Who: Any interested chip manufacturers and suppliers

Why: To provide awareness and update interested members of the semiconductor and equipment industry of the requirements of e-Diagnostics.

Expected Results: Further alignment of chip manufacturer and supplier implementation strategies for e-Diagnostics and a common understanding of issues.

e-Diagnostics Seminar Agenda

0800	e-Diagnostics Project History	R. Goodall
0815	e-Diagnostics, Motivation and Benefits	B. Ramus
0845	e-Diagnostics, International SEMATECH Project	H. Wohlwend
0900	e-Diagnostics Guidelines	D. Bloss
0920	e-Diagnostics Security Guidelines	M. Sigman
0940	Break	
1000	e-Diagnostics Capability Model	G. Viviani
1020	e-Diagnostics Data Model	N. Nikolic
1040	e-Diagnostics Protocol Definition	J. Martin
1100	e- Diagnostics, Japanese Project	S. Kobayashi
1120	Panel	
1155	e-Diagnostics Summary (Actions needed)	H. Wohlwend
1200	Conclusion
